

Acknowledgement

I would like to express my deepest gratitude to my advisor, Professor Margaret Yang for her professional guidance and generous suggestions for my thesis writing. Whenever I feel exhausted and confused, Dr. Margaret Yang will encourage and offer valuable ideas for me. Without her patience and her inspiring confidence in me, I can not overcome all the difficulties in order to finish this thesis on time. From this thesis, I also learn a lot about my English writing.

I am very thankful to my parents who always give me economic and spiritual support. I appreciate their support along this long trip of thesis writing, and they also place their confidence in me. Their companionship makes me feel less lonely.

I also want to thank my dear friends, Christine and Sophia, who showed their sincere concern about me from time to time, especially when I feel disappointed. I am lucky to make some good friends during my graduate studies.

Finally, I really cherish the memories in the course of pursuing advanced knowledge. In short, without those special people mentioned above the completion of the thesis would not have been possible.
